FAIR WOMEN AT WORK.

Every Energy Directed Toward Making the
Atlanta Exposition a Success.

The women of the south are working
with a will to make the Woman's build-
ing and its exhibit one of the most suc-
cessful features of the proposed Cotton
States and International exposition. The
president of the board of women man-
agers is Mrs. Joseph Thompson, one of
the social leaders of Atlanta. She is a
daughter of Major Livingston Mims,
who was a member of the staff of Gen-
eral Joseph Johnston during the war,
and her husband is one of the promi-
nent business men of the city.

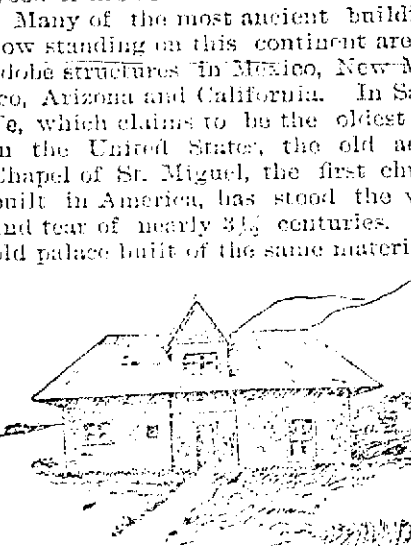

terprise. The wisdom of the choice was
so apparent that the ladies who became
associated with Mrs. Thompson in the
work elected her president without de-
bate. Among the other prominent offi-
cers are Mrs. W. C. Lanier, first vice
president; Mrs. S. M. Inman, second
vice president; Mrs. A. B. Steele, sec-
retary; Mrs. A. E. Thornton, treasurer,
and Mrs. W. H. Felton, chairman of
the executive committee. This commit-
tee is a very strong body, and its mem-
bership includes many of the most ca-
pable women of the south.

A reasonable portion of the exposi-
tion's funds were allotted for a Woman's
building upon condition that the
ladies should raise money for a proper
exhibit. For such purpose a large sum
was needed, but the ladies were un-
daunted. Every fair attaché of the wom-
an's department immediately began
soliciting money have been and are be-
ing carried out. The gay world of At-
lanta has turned its entire attention to
boarding up the American dollar, and
the proceeds of about every entertain-
ment that is held are devoted to the
woman's exhibit fund. As a result,
money is coming in at a rapid rate, and
the success of the woman's department
seems assured.

ADOBE HOUSE COMING IN.
Colorado Springs Setting the Fashion For
the Remainder of America.

The first houses erected upon Ameri-
can soil were built of adobe, or sun
dried brick, and adobe houses now
promise to become quite a fad in the
west. Colorado Springs has set the fash-
ion, and we seem to be at last on the
trail of a genuine national school of ar-
chitecture. There is an impression that
adobe houses are unsatisfactory and un-
desirable places of residence. The fact
is, however, that a well built adobe
house is cooler in summer, warmer in
winter and more successful in defying
time and the elements than a house of
wood or fire brick.

Many of the most ancient buildings
now standing on this continent are the
adobe structures in Mexico, New Mex-
ico, Arizona and California. In Santa
Fe, which claims to be the oldest city
in the United States, the old adobe
Chapel of St. Miguel, the first church
built in America, has stood the wear
and tear of nearly 300 centuries. The
old palace built of the same material is

NEW ADOBE HOUSE AT COLORADO SPRINGS.
about as ancient, and within its walls
Indian cañiques, Spanish adventurers,
Texan frontiers and American governors
have successively sat in state. Beneath
the shadow of its roof one of the most
successful of American novels, "Ben Hur,"
was written.

General Palmer, formerly president
of the Denver and Rio Grande railroad,
set the adobe house fashion in Colorado
Springs several years ago, and now a
score of such houses are being built for
the fashionable inhabitants of "Little
London," as ex-Governor White once
termed Colorado Springs. Half breed
Mexicans have been imported to make
the adobe, and no one is considered
quite in the swim nowadays in Colo-
rado Springs unless he has an adobe
house under way. The Mexicans closely
guard the secret of making adobe, but
the bricks are formed of loamy earth
containing about two-thirds fine sand
and one-third clay and a certain
amount of straw. The material is damp-
ened and worked into a proper consist-
ency by treading with the feet, and is
then placed in molds 16 inches long, 4
inches wide and 6 inches deep. The
adobe is dried in the sun and becomes
very hard and durable.

my and our colonial brethren
facilities for sending their nice oxen
into our markets and selling them on
reasonable terms. By doing that you get
cheap meat and defeat foreign wiles at
the same time."

This view is actually being forced up-
on the attention of the board of agricul-
ture, and American shippers had better
understand that the pressure is really
influential. Of course the boggy of pleuro-
pneumonia has been raised, but this is
to be laid in an artful manner. The
board of agriculture object to remove
the existing prohibition of the importa-
tion of live Canadian cattle because the
disease exists in Canada, and they de-
cline to run the risk of bringing it into
this country and then having to stamp
it out at vast expense. "But," say the
Canadians, "we still deny the existence
of the disease. But, admitting that there
is some risk, we are prepared to take
all of it. Admit our cattle, and if you
should be able to trace a single case of
the outbreak of the disease to one of our
beasts we will guarantee to defray the
entire cost of stamping it out."

That is the scheme now under consid-
eration. It remains to be seen whether
it will tempt the board of agriculture.
The probabilities are that its very nov-
elty will induce the board to refuse to
have anything to do with it, because, as
a rule, newness is on the face of it a
distinct disqualification to anything sub-
mitted to any British government de-
partment.—London Letter.

HYPNOTISM ON TRIAL.

The Subject Did Not Respond When Sight
and Hearing Were Cut Off.

Some experiments in hypnotism which
Dr. Lays, the French physician, was re-
cently permitted to try before the Société
de Biologie in Paris have raised a doubt
as to the genuineness of the new science.
Dr. Lays is a confirmed hypnotist and
has made many experiments.

When the time for the public experi-
ments before the French society came,
Dr. Lays had a subject who had lost the
little finger of his left hand. The man
was put in a trance, and then this hand
was spread out on a table. Dr. Lays
took a pin and stuck it in the table at
the place where the missing finger would
have been. He repeated the experiment
several times, using pins, needles and
knives, and each time the patient pulled
away his hand and groaned, as though in
pain. Just as long as Dr. Lays had the
man in hand the experiments were high-
ly successful. Some of the other physi-
cians present objected to his announcing
just what he was going to do before each
experiment. Dr. Lays turned the pa-
tient over to them.

They laid his hand under the table,
held a newspaper in front of his face so
that he could not see what was being
done and then made several jabs with
a steel pen at the spot where the little
finger should be. Each time the patient
groaned and pulled his hand away.
Then one of the physicians argued that
if the patient was shamming it would
be easy enough for him to know just
when the pen was struck in the table, as
the scratching noise it made was distinct-
ly audible.

So it was quietly agreed to simply
put the pen within a fraction of an inch
of the table. This was done, the news-
paper still being held before the man's
eyes, and he never made a move. Not a
groan nor an attempt to pull the hand
away followed the experiment.

Dr. Lays was amazed, but attempted
no explanation.—Paris Letter.

Christ Will Come In April, 1901.

Coin Dies Destroyed.

Sledge hammer blows delivered by
powerful employees of the mint on Jan.
2 destroyed the dies in use during the
last year. There were 512 in all, and of
these 72 were for double eagles, 97 for
eagles, 32 for half eagles, 4 for quarter
eagles, 13 for dollar pieces, 21 for half
dollar pieces, 50 for quarter dollar pieces,
86 for 10 cent pieces, 50 for 5 cent pieces
and 105 for 1 cent pieces. The dies are
steel, and to destroy them it became
necessary to heat them almost to white-
ness. Then they were taken from the
fire and placed upon an anvil, and two
blacksmiths with sledge hammers struck
them upon the face.—Philadelphia Times.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants
and Children. It contains neither Opium, Morphine nor
other Narcotic substance. It is a harmless substitute
for Paregoric, Drops, Soothing Syrups, and Castor Oil.
It is Pleasant. Its guarantee is thirty years' use by
Millions of Mothers. Castoria destroys Worms and allays
feverishness. Castoria prevents vomiting Sour Curd,
cures Diarrhoea and Wind Colic. Castoria relieves
teething troubles, cures constipation and flatulency.
Castoria assimilates the food, regulates the stomach
and bowels, giving healthy and natural sleep. Cas-
toria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for chil-
dren. Mothers have repeatedly told me of its
good effect upon their children."

Dr. G. C. Osceola,
Lowell, Mass.

"Castoria is the best remedy for children of
which I am acquainted. I hope the day is not
far distant when mothers will consider the real
interest of their children, and use Castoria in-
stead of the various quack nostrums which are
destroying their loved ones, by forcing opium,
morphine, soothing syrup and other hurtful
agents down their throats, thereby sending
them to premature graves."

Dr. J. F. Kinkeloe,
Corway, Ark.

Castoria.

"Castoria is so well adapted to children that
I recommend it as superior to any prescription
known to me."

H. A. Archer, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's depart-
ment have spoken highly of their experi-
ence in their outside practice with Castoria,
and although we only have among our
medical supplies what is known as regular
products, yet we are free to confess that the
merits of Castoria has won us to look with
favor upon it."

DISCOVERED CHRISTIAN SCIENCE.

Remarkable Career of Rev. Mary Baker Eddy, Who Has 100,000 Followers.

Rev. Mary Baker Eddy, discoverer and founder of Christian Science, author of its textbook, "Science and Health, With Key to the Scriptures," president of the Massachusetts Metaphysical college and first pastor of the Christian Science denomination, is without doubt one of the most remarkable women in America.

Mrs. Eddy traces her genealogy back to Scotch ancestors, who came to this country not long before the Revolution, and her father, Mark Baker, was the youngest of 13 children. The old Baker homestead of about 300 acres lay in Concord and Bow, N. H. After a childhood filled with visions somewhat resembling those of Jean of Arc, Mrs. Eddy became the wife of Colonel George Washington Glover of Charleston in 1843. He died of yellow fever a year later, and four months after his death her son was born. When the boy was 4 years old, Mrs. Eddy resigned him to the care of a former nurse and made a second matrimonial venture, but speedily procured a divorce. In 1877 she married Asa Gilbert Eddy of Lynn, Mass. Meanwhile her son grew to manhood and married before he learned that his mother was still alive.

Mrs. Eddy asserts that in 1866 she became certain that "all causation was mind and every effort a mental phenomenon." Taking her text from the Bible, she endeavored in vain to find the great curative principle—the Deity—in philosophy and schools of medicine, and she concluded that the way of salvation demonstrated by Jesus was the power of truth over all error, sin, sickness and death. Thus originated the divine or spiritual science of mind healing, which she termed Christian Science. Her husband was her first public convert. She has a palatial Boston home and a country seat near Concord. The Christian Science church has a membership of 4,000, and 800 of the members are Bostonians.

ONCE A PRINTER'S DEVIL.

Chilton Struck Against a Dollar a Week and Is Now a Senator.

Horace Chilton, who will succeed Richard Coke of Texas in the United States senate next March, began the battle of life as a printer's devil when he was 16 years of age at the salary of \$1 a week and board. At the end of a year he was refused an advance of sal-

ary and struck, and for a time he was a tramp printer. He was born near Tyler, Tex., 41 years ago and had few educational advantages. After his strike for more wages he managed to save a little money and procured another year of schooling. He then started a small newspaper in Tyler, supported his mother and sister and gave the latter an education. While still running his paper he studied law and was admitted to the bar.

After a struggle he secured a good practice in Tyler, and in 1881 Governor Roberts officially recognized his merit by appointing him assistant district attorney of Texas. Meanwhile he had taken an active part in politics. He made an unsuccessful attempt to secure the congressional nomination in the Third district, and in 1876 delivered a speech at the Fort Worth convention favoring Tilden for president. In the Galveston convention of 1876 he presided over the claims of James H. Hogg for attorney general, and two years later was a delegate to the national Democratic convention in St. Louis.

In 1890 he nominated Hogg for governor at the San Antonio convention, and when Senator John H. Reagan resigned in 1891 Governor Hogg appointed Chilton to fill the vacancy. He took his seat in the United States senate on Dec. 7, 1891, and served until March, 1892, when he was succeeded by Roger Q. Mills. Mr. Chilton enjoys the distinction of being the first native born Texan to represent his state in the senate. He is one of the ablest lawyers in Texas, and large fees have made him a wealthy man. He is a friend of silver and believes in unlimited coinage at the ratio of 16 to 1. He is a well built man, of medium height, with a light complexion, brown hair and auburn whiskers.

Perforating Postage Stamps.

In perforating postage stamps a die plate is placed below the needles of a machine carrying 300 needles. As about 130,000,000 holes are punched per day, the wear on the die plate is excessive. Brass plates wear out in a day, and even steel plates are rapidly destroyed.

WHAT THE EDITOR HEARD.

THE REMARKABLE STATEMENT MADE TO THE EDITOR OF THE CAYUGA COUNTY INDEPENDENT.

Silas Pennell, of Niles, N. Y., Tells How He Was Saved From Death—A Miracle of the Nineteenth Century.

Hearing through Messrs. Allen & Burch, druggists of Niles, that Mr. Silas Z. Pennell, a respected citizen of that town had been cured of a bad case of sciatic rheumatism by the use of Dr. Williams' Pink Pills for Pale People, the editor of the Cayuga County Independent determined to know the truth of the matter and went to Niles to ascertain from Mr. Pennell himself what his condition was and what the pills had done for him. Mr. Pennell is a farmer and has a neat and comfortable home near the Niles post office or "Dutch Hollow," as it is commonly called. We asked Mr. Pennell if it was true that he had been cured of a bad case of rheumatism by Dr. Williams' Pink Pills. He replied that it was true and that he would tell us about it in a few words. He said that three years ago in August 1891, he was seized with severe pains in the hip, just where the sciatic nerve is, as he was informed later, which gradually ran down his leg making life a misery to him but not preventing him from doing some work on the farm. Soon after he was loading hay when he slipped off the load and his hip, in the exact spot where the pain started, struck on the wheel. After this he was worse, suffering great agony, and for some time was unable to do any work. He took such medicines as his physician prescribed and improved somewhat so that he could help some around the farm again. About Thanksgiving time he was helping to put away some barrels of cider which he had made, when he strained himself and again became helpless. He then tried another physician who felt confident of curing him by the use of the electric battery and medicines which he prescribed. But failure was the result, he got no better, and another physician was tried and treated him for some time. By this time his whole body was affected and his life was a miserable one. Sharp pains would start in his hand or foot, run up one side of his body, over his shoulders and then down the other side and then pass off for a short time. These pains would return regularly, affecting his whole body, and nothing seemed to relieve him and he began to despair of ever being well. In the spring of 1892 a relative in another county read of a case very similar to Mr. Pennell's, which had been cured by Pink Pills, and sent the article to him, asking if it did not suit his case. It was very similar and he determined to try them. He commenced taking Pink Pills and soon felt better, the pains became less violent with longer intervals between them. He felt encouraged and persevered in their use and soon became able to work on the farm, and in April or May he felt so free from pain that he considered himself a well man again. He says he has probably taken twenty boxes and is able to do as good a day's work as any other man, and we can say that he looks like a hale and hearty man who had never known sickness.

Mr. Pennell keeps a box of the pills in his home and whenever he feels a pain or a little unwell he takes a pill or two and is soon all right again. He says they will cure a headache for him in two minutes. He says he doesn't know what Pink Pills will do for others but he does know that they have cured him of what physicians said was sciatic rheumatism when three doctors had failed to do him any permanent good. Some of his neighbors also, he says, have been greatly benefited by using Pink Pills, and one says he cannot afford to keep a box in the house as his whole family want to take them on all occasions as they make them feel so much better, and they cannot even feel sleepy in the morning without wanting to take a Pink Pill for it.

An analysis of Dr. Williams' Pink Pills shows that they are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of the grippe, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female. Pink Pills are sold by all dealers, or will be sent post paid on receipt of price, 50 cents a box or 6 boxes for \$2.50—they are never sold in bulk or by the 10—by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.

THE LONG DISTANCE TELEPHONE

An Exhibition Given Last Evening—Conversation Held With New York, Pittsburgh and Chicago, and a Concert at Newburgh Heard Distinctly.

The Hudson River Telephone Co., having completed its metallic circuit between this city and Newburgh, an exhibition of its workings, with the aid of long distance telephones, was given at the Russell House, last evening, by Mr. Wm. H. Cull, General Superintendent of the Hudson River Telephone Co., and Mr. H. J. McCartney, of the American Telephone and Telegraph Co., with whose lines the Hudson River system is connected at New York, thus giving the latter a connection by direct wire with all the principal cities in the East and as far west as Chicago.

The exhibition was given in room 52, and about thirty or forty persons were present, among them being several ladies.

On a table in the centre of the room was a cabinet in which connection between the instrument and twenty receivers was made, so that that number of persons, besides the operator, could hear the conversation over the line.

The operator at Newburgh could be heard as distinctly as if he had been in the room, and so could Poughkeepsie. Through the latter office connection was made with New Bedford, Mass., and thence to New York. The operator at the latter office entertained the party by reading reports of the Brooklyn strike from the evening papers. His voice was heard as distinctly as if he had been at an instrument only a block away.

New York connected Middletown with Pittsburgh, and the operator there, when asked if he could talk a little for the ladies and gentlemen in Middletown, New York said: "Yes I guess I can," and when he wasn't "answering calls," which he explained kept him very busy, he answered all questions asked, and in spite of the resistance of twenty receivers every word came clear and distinct. Up to this time not a particle of the buzzing sound caused by induction, which is the source of so much trouble on an iron circuit, was heard. But when Mr. McCartney told Pittsburgh he wanted to talk with Mr. Knapp at Chicago and the connection was made, there were evidences of induction.

Those present had also the pleasure of listening to a concert in the Academy of Music in Newburgh and especially gratified to hear very plainly the sweet, familiar voice of Miss Amy Ward Murray, a former Middletown lady.

The Academy of Music was connected with the Newburgh central office by an instrument placed in the lines, not the best spot, but the only one that could be had.

The concert was under the direction of the Philharmonic Club, and a copy of the programme had been obtained by Mr. Cull. It was as follows:

1. Overture, by George W. Johnson.
2. Baritone Solo, by George W. Johnson.
3. Baritone Solo, by George W. Johnson.
4. Baritone Solo, by George W. Johnson.
5. Baritone Solo, by George W. Johnson.

The accompaniment by the orchestra partially spoiled the baritone solo, and completely drowned the tenor solo, but there was no difficulty in hearing every note sung by Miss Murray, who responded to an encore, or the clarinet solo. The chorus came over the wire very well, and the clapping of hands in the audience could be distinctly heard.

Messrs. Cull and McCartney will give an exhibition at Goshen this evening.

HIS LEG AMPUTATED.

The Last Resort of the Physicians to Save the Life of Mr. S. H. Bodine.

Mr. S. H. Bodine, having concluded that the one chance of saving his life was to amputate his leg, the operation was performed, this afternoon, by Dr. Pillsbury, assisted by Drs. Struble, Douglas and Hamner.

It will be remembered that gangrene developed in Mr. Bodine's toes several days ago. The disease spread so rapidly that the operation was necessary. The leg was amputated above the knee.

APPOINTMENT OF UNDER SHERIFF

Not Made According to Law and the County Clerk Refuses to Swear in Mr. Howell.

Mr. Henry M. Howell, who was appointed Under Sheriff, by Sheriff Beakes, and has been performing the duties of his office at the Newburgh Court House, went to Goshen, Tuesday, to be sworn in.

The Deputy County Clerk refused to administer the oath, on the ground that Mr. Howell had not been appointed as required by law. The appointment was made on Jan. 14th. The law requires that the Sheriff, who took possession on Jan. 1st, shall make the appointment of an Under Sheriff within ten days after assuming office.

Both Mr. Howell and the County Clerk have sought legal advice, and the opinions thus far given out, are to the effect that the Clerk had no right to administer the oath under the circumstances.

It is thought possible, however, an order of the court may be obtained that will set matters right.

A DEAL WITH WILLIE WALTER ROWE.

George Lea Recovers One of His Horses and Gets Pay for Another That Rowe Had Sold.

Mr. George Lea, of the Madison House, in this city, purchased, last summer, at the Hollywood sale, two fine young mares, and brought them home. He afterwards sent them to Willie Walter Rowe's stock farm, near Pine Bush, to be worked. When Mr. Rowe left these parts, Mr. Lea learned through the investigation of his counsel, that Mr. Rowe had sold these mares, of course without his knowledge or authorization, to Geo. R. King, of New Brighton, Staten Island, and that one of them had been taken there and the other left with Robert Teple, of the town of Shawangunk, Ulster county. After considerable diplomacy Mr. King relinquished all claim to both of them, and made a cash offer for the one he had, which was accepted by Mr. Lea. Mr. Teple refused to give up the one he had, claiming a lien for its keep. An action in replevin was commenced against him, in the Supreme Court, by A. DuBois Staats, Mr. Lea's lawyer, and the sheriff of Ulster county, yesterday, turned over the mare, Princess W., to Mr. Staats, at Pine Bush.

RECEIPTS AND PRICES OF MILK.

Increase of Receipts in 1894 Over 1893, But a Decrease in Price.

During the year 1894, 7,473,273 cans of milk were received in New York city an excess of 135,760 cans over the year 1893 or an average increase per day of 599 cans. The receipts of cream were 210,260 and condensed milk 67,302, an increase over 1893 of 18,171 cans of cream and condensed milk or an average increase per day of 50 cans. The average exchange price for milk was 2.626 per quart in 1894 as against 2.79 in 1893. The average platform price was the same, \$1.45 per can.

BURGLARY IN THE TOWN OF NEWBURGH.

The residence of Mrs. J. L. Rogers at Balmville, in the town of Newburgh, was robbed by burglars, Tuesday night. The family are spending the winter in New York, and the coachman had instructions to visit the house twice a day to look after the fires. Wednesday morning, when he went to the house, he discovered that it had been broken open and ransacked from cellar to garret. What booty was secured will not be known until Mrs. Rogers' return.

SOME OF THE BEAUTIES OF FAUST.

In the production of "Faust" at the Casino Theatre, next Friday, Jan. 25th, by George Learock and company. The world-renowned Brockton scene will be shown in its entirety, and include the awe-inspiring thunder-bolt, the electric snake, and will conclude with the wonderful "Rain of Fire," when the whole stage is illuminated with a descending torrent of liquid fire. It will be the grandest production of the season.

A Verdict Against the Susquehanna and Western Reduced.

In October last, Mrs. Huldah C. Loeys was given a verdict for \$12,000 in her suit against the Susquehanna and Western to recover damages for the death of her husband, Benjamin Loeys, killed at the Newfoundland crossing. The case was appealed and Judge Magie has decided that the verdict was excessive and has reduced it to \$7,500. Unless this is accepted a new trial will be granted.

DIED AT THE AGE OF ONE HUNDRED AND FIFTEEN.

Mrs. Margaret Johnston, the oldest resident of the Sawkill region, Ulster county, died at 3 o'clock, Tuesday morning. It is said that Mrs. Johnston was born in the year 1780. She was the widow of Daniel Johnston, who died about forty years ago.

In Olden Times.

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently cure habitual constipation, well-formed people will not buy other laxatives, which act for a time, but finally injure the system.

BLOWN UP BY DYNAMITE.

Isaac L. Bartle Killed by the Explosion of a Blast in a Blue Stone Quarry.

From our Long Eddy Correspondent.

Mr. Isaac L. Bartle, the popular and highly esteemed manager of Mr. Chas. W. Martin's blue stone business at Basket Bridge, near Long Eddy, was instantly killed in one of the quarries, Monday, while assisting in removing the tamping from a blast in which three sticks of dynamite had been used, which had failed to explode through some defect in the fuse.

E. J. Downey, who was working within a few feet of the blast, stepped away a few minutes before the explosion occurred and was uninjured. The body of Mr. Bartle was thrown several feet, landing on an embankment about eight feet high. It was horribly mangled and the clothing was nearly all torn off.

Mr. Bartle is survived by a wife and two children, Chrissie, a promising girl of seven years, and Percy, a bright boy of five; also by his mother and three sisters and two brothers, who reside at New Brunswick, N. J. Mr. Bartle was highly esteemed by all who knew him and was a kind, and loving husband and affectionate father.

The body was taken to New Brunswick, Wednesday, for burial.

WRECKED BY DYNAMITE.

A Dago Car at Cooks Falls Destroyed—Narrow Escape of an O and W. Passenger Train.

(From our Cooks Falls Correspondent.)

A gang of Italians, working for the O. and W. at Cooks Falls, left, Tuesday, a dynamite cartridge to thaw out in front of their stove in the box car in which they make their home. They were at work on the creamy switch and were to use the explosive in blasting. Just after passenger train, two, passed the car, the dynamite exploded, blowing off a portion of the roof and one side of the car, and otherwise wrecking it badly.

The car was set on fire by the explosion and the contents, which consisted of furniture and bedding and the personal effects of the men, were totally destroyed. A note for \$50, a watch and some currency were lost in the fire.

The shock of the explosion was felt in every house in the village.
